

HASIB IMAM

Cinematic alt-pop from the underground.
Three records, one obsession —
sound you can stand inside.

BIOGRAPHY

HaSiB Imam builds slow-burning, cinematic alt-pop — records that feel like walking into a dark room and letting the light find you. Three albums, over a hundred shows, and a sound that lives between the last beat and the first.

His live show pairs stripped-back vocals with towering, stage-lit production, making every venue feel like the inside of a film.
